future-homeless

Introduction

CP Fighting is a top-down bullet hell adventure inspired by "*The Binding of Isaac*." Your goal is to survive an endless sequence of rooms, each one inhabited by familiar faces, though for reasons unknown, they've turned unexpectedly hostile.

How to Play

Press **Enter** to start your journey into the depths. Navigate through each room using **W, A, S, D** keys and eliminate all enemies to unlock the doors to the next chamber. Shoot bullets in four directions (up, down, left, right) using the arrow keys to attack approaching foes, and unleash your special laser ability with the **E** key when you need extra firepower. Master the dash mechanic by pressing **SPACE** to dodge incoming attacks and reposition yourself quickly—timing is crucial when facing Chasers that explode into 4-directional bullet patterns upon contact, and Jumpers that dash aggressively before firing their own spreads. Collect coins dropped by defeated enemies (10 coins per kill) to build your currency for upgrades. Every 10 rooms, prepare for an intense boss battle that will challenge your skills and reflexes. Keep an eye out for special Mystery Rooms that appear randomly—spend 10 coins to unlock mystery boxes containing helpful items like health potions or damage boosters. You'll also encounter Store Rooms where you can choose between two items to enhance your capabilities. Plan your spending wisely, stay mobile, and adapt your strategy to survive deeper into the game. If you fall in battle, press **R** to restart and try again.
